

# SOURASISH ROY

UI/UX DESIGNER

## DESIGNER INSIGHT

I'm a passionate **UI/UX Designer** with a keen eye for detail, a strong design logic, and an ever-growing skillset. Recently certified in the **Google UX Design** program, I'm expanding my understanding of research-driven design, accessibility, and usability testing.

Skilled in **Canva** and **Figma**, I design clean, intuitive digital experiences with a user-first mindset. I thrive in teams, communicate well, and constantly learn. **Hackathons** and **Designathons** have sharpened my skills through real-world collaboration and challenges.

## EDUCATION

**Bachelor of Computer Applications**

*Inspiria Knowledge Campus*

2023 - Present

CGPA: 7.2

## SKILL

UX Research & Empathy Mapping

Wireframing & Prototyping

Visual Design & Layout

Social Media Insight

Figma & Canva

Collaboration & Communication

## PROJECTS

### 1. MediBay – AI Health Bot UI/UX

**Tools:** Canva

Designed the complete user interface for **MediBay**, an AI-powered health assistant built during **AIGNITE 2025**. Focused on multi-screen navigation, symptom input flow, and responsive layouts, ensuring clarity and ease of use for all users.

### 2. Communeat – Community Food Sharing Platform UI/UX

**Tools:** Figma

Designed during **Designathon 2025** at **Inspiria Knowledge Campus**, **Communeat** is a platform to reduce food waste through safe and trusted community sharing. Crafted user flows for donation, pickup coordination, and trust-building features, focusing on accessibility and ease of use.
